MILLIONS INVOLVED.

Injunctions Against Tennessee Copper Companies Dissolved.

KNOXVILLE, Tenn., Aug. 20 .- Judge McConnell, sitting at Cleveland, Tenn., today dissolved injunctions granted two weeks ago in a case that involves millions of dollars. At Ducktown, Tenn., \$5,000,000 have been invested in the copper industry and two mammoth smelting plants built. About forty farmers claim that their land has been ruined by the fumes from the plants destroying all vegetation, sulphuric acid being used in the process. They filed suits for damages and cessation of the alleged nulsance, and were granted injunctions two weeks ago, the observance of which practically shut down the plants. Three thousand men are employed in the industry and one feature of to-day's hearing was the presentation of a monster petition, signed by 3,000 citizens of Polk county, asking the dissolution of the injunction. The Tennessee Copper Company and Ducktown Sulphur, Copper and Iron Company are the corporations involved. The first has spent \$3,000,000 and employs 2,000 men; the latter has spent \$1,000,000, is ready to put in \$4,000,000 more, and employs 1,000 men. Individual damage suits will be heard

at the September term of court.

Rumor of Shortage Denied. KANSAS CITY, Mo., Aug. 20 .- The Arcentine smelter, one of the largest plants owned by the American Smelting and Refining Company, and which employs 800 will, it is announced, be closed down on Sept. 15. Assistant Superintendent Mc. Donald says the shut-down is to give the plant a thorough cleaning, and denies as utterly untrue a rumor that the purpose is to trace an alleged shortage of \$100,000

in the ore accounts. The Ohio Republican State executive committee has fixed the date of the campaign opening for Sept. 21, at Delaware. Senators

buying cavalry horses, and this, of course, was a help to the market. They were wanting animals 141/2 to 151/4 hands high, and were paying from \$60 to \$75 per head. Other sales included coach horses as high as \$200 and quite a number of heavy horses sol as high as \$167.50. The bulk of the sales of medium to good drivers and work horses narket were George Warman, of Arcadia with a load of stock including six or seven norses that brought \$160 apiece. James Danewood sold four draft horses at \$167.50 and a roan coach mare at \$200. Dug Stewart marketed a load from Whitestown, G Black a load from Greencastle, B. Smiley a load of horses and mules from southern Indiana, and Alonzo Young oad of horses from Crawfordsville. Other shippers on the market with less than a load were Perry Tully, of Danville; Mc-Daniels & Conners and I. T. Davis, of Lebanon, and A. C. Filer, of Liberty.

The market amply able to take charge of all the stock offered, showing that the company's shares have come to be closely held. But the supporters of the stocks are inclined to take profits on holdings thus acquired upon any when anything like an outside demand develops for the stocks. Under these artificial conditions the movements of the stock has little significance. The general list showed a disposition to-day to ignore the steel stocks. The railroads concerned in the Northern Pacific settlement and others allied by identical ownership or otherwise, resumed the leadership of the market. This may have been based upon a published report of a prolonged conference yesterday at Bar Harbor between the three financiers who conducted the Northern Pacific contest and its settlement. The Morgan and Harriman roads were generally affected in sympathy, including Illinois Central, Chicago & Alton, Southern Railway and Chicago, Indianapolis & Louisville. The anthracite carriers manifested some strength and the bituminous coal carriers made gains, although Norfolk & Western and ness to developments in the money and exchange market. A sharp recovery in sterling this morning led to some reaction from in wheat bills were reported small, in connection with reports of smaller seaboard wheat clearances, which caused a reaction in the wheat market. A further shipment of \$2,500,000 is on the way to San Francisco from Sydney This makes it evident that the London market will find a way to meet its gold obossibly without actual shipments of gold.
